

MODULAR VAULTS

PINGAN modular vault is a flexible, highly secure and cost effective solution for all valuable storage needs.

The vaults are tailor made for every single location to maximise floor space with a unique mixture panel for high resistance to drilling and explosives.

UL CERTIFIED MODULAR VAULT

Pingan modular vaults are UL certified which enhance reliable image to customer

OPTIMISED SPACE

Pillar less structure maximizes internal vault floor space

CUSTOM MADE SIZE

Mix and match sections of safe deposit boxes to get the optimum layout or create custom made size to fit your exact needs.

VAULT PANELS

Vault panels filled with Pingan designed solid concrete mixture for drill and break resistance

ADDITIONAL FEATURE :

Fast set up: Optimised construction for quick installation, minimising disruption of daily business operation

Modular design: reduce cost for relocation, increase depreciation duration
